ORDER INFORMATION

GENERAL ORDER INFORMATION

PRODUCTION TIME: 3-5 working days. Some items may require a longer production time. Call for more information.

OVER/UNDER RUNS: We reserve the right to ship and bill for five percent over or under ordered quantity.

BLANK ITEM ORDERS: Use next column pricing.

PAYMENT TERMS: Net 30 days upon credit approval.

PRODUCT GUARANTEE: Alexander warrants all products to be of the highest quality and will replace any defective products without charge. Liability limited to amount of invoice.

RETURNS: All claims must be submitted in writing within 30 days from receipt of goods. Returned merchandise will not be accepted without a return authorization number issued by Alexander. Goods must be returned within 15 working days of authorization issuance or the claim will be void.

REPEAT ORDERS: No set up charge for orders that are less than two years old. When reordering, specify previous purchase order number on current purchase order.

CANCELLATION: Customer is responsible for all costs incurred after production starts.

SHIPPING: Most orders will be shipping from ZIP code 61776. The most economical carrier will be selected unless otherwise specified.

FREIGHT CLAIMS: Recourse with carrier is the responsibility of the customer. Title to merchandise passes to consignee on carrier pickup.

PROP65 COMPLIANCE: Check website for updated compliance information.

STANDARD IMPRINT COLORS

Alexander promotional products are available with 22 different imprint ink colors at no additional charge. If a color other than described below is needed, be certain to specify the PMS coated color number or name.

There is a $45.00(G) charge for a requested color that is not on the list shown here.

IMPRINT METHODS

FULL COLOR PRINT

Full color printing is the process by which an inkjet printer prints directly onto the surface of a product. These imprints are bright, detailed and offer maximum brand exposure.

FULL COLOR DECAL

Full color decals are glossy, vibrant, high quality decal paper allowing for detailed artwork. High-grade adhesive backing secures the decal to the product, creating an eye-catching imprint.

PAD PRINT

Pad printing transfers an imprint onto a product via the stamping of an inked silicone pad that has a mirrored image of the imprint cut out of it.

SCREEN PRINT

Screen printed imprints are created through the process of burning the imprint into a silk mesh screen, creating a stencil for ink to pass through onto the product.

LASER ENGRAVE

Laser engraving is the process by which lasers burn an imprint into the surface of a product, leaving a marking distinct in color and texture from that of the metal.

EPOXY DOME

An epoxy dome is created by placing an imprint in the head of a writing instrument and sealing it with a clear drop of epoxy, creating a smooth, vibrant shine.
